
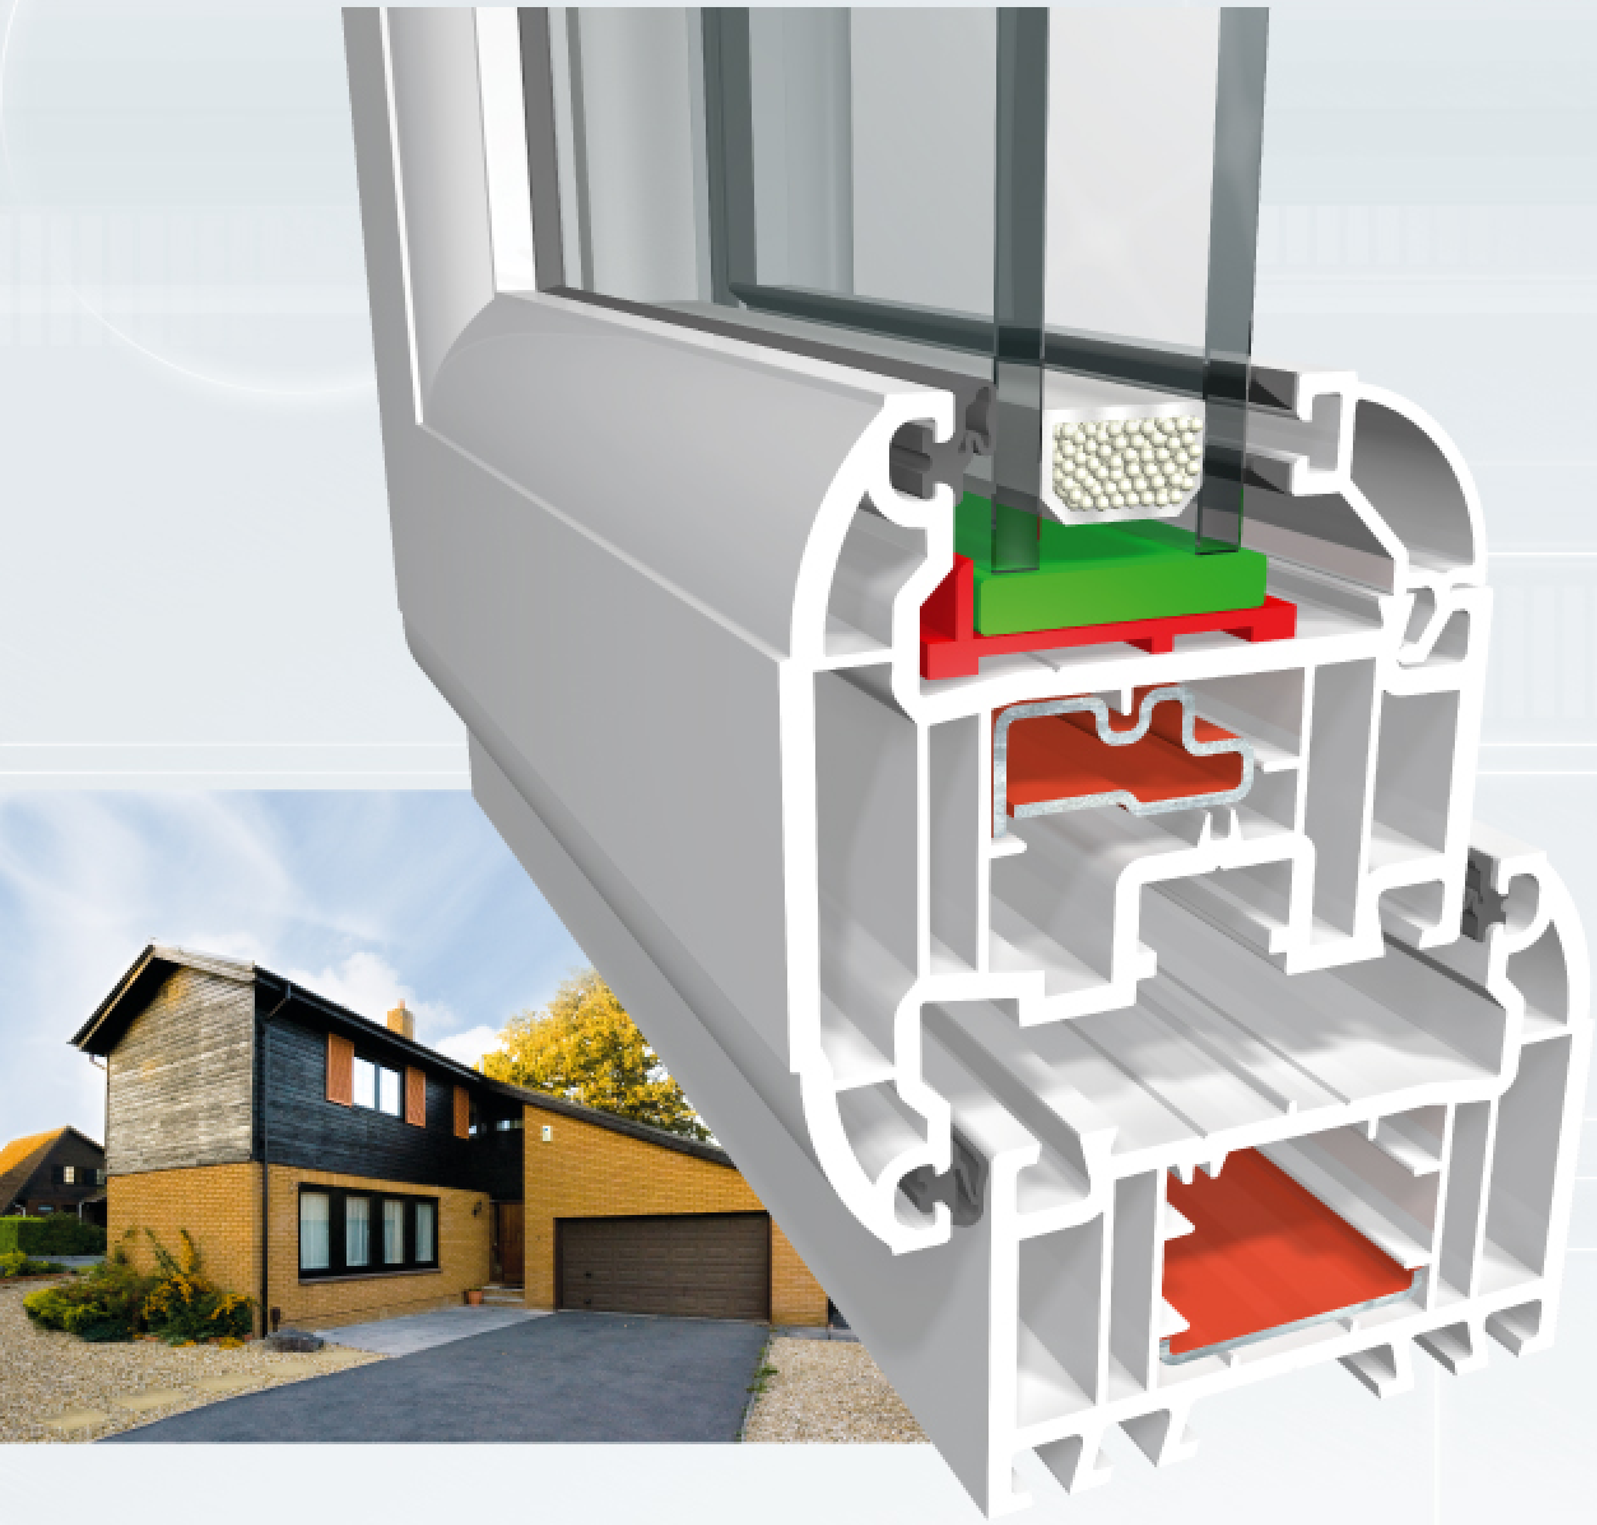
Ideal 70

aluplast's *PVC window system – ideal for all those who are simply not prepared to compromise either on technology or appearances*

aluplast®

Kunststoff-Fenstersysteme

The Ideal 70 casement window represents the very best of the 'new generation' of PVC-U window systems and combines stunning good looks with outstanding thermal performance, comforting protection from the weather and state of the art security. The elegant aesthetics of Ideal 70's ovolo featured profiles provide really good looking windows that will grace and enhance any home and harmonise beautifully with Ideal 70 doors on any elevation.



A five chamber construction and double pre-applied weatherseals provide complete protection from the elements while also conserving your valuable energy and helping to protect the environment.
Your home will feel warmer, quieter and cosy in winter yet airy and bright in summer.
The Ideal 70 casement window is made from highly durable PVC-U that cannot rot or warp and needs only occasional cleaning with a mild soap solution to keep it looking great for years to come.
You need never paint a window again!
